

Special Issue

**Paleoseismology:
Integrated study of the Quaternary geological record
for earthquake deformation and faulting**

Alessandro M. Michetti

*Dipartimento di Scienze Chimiche e Ambientali, Università dell'Insubria, Como, Italy
E-mail address: michetti@fis.unico.it*

Franck A. Audemard M.

*Venezuelan Foundation for Seismological Research–FUNVISIS, Earth Sciences Department, Caracas, Venezuela
E-mail address: faudemard@funvisis.gob.ve*

Shmuel Marco

*Department of Geophysics and Planetary Sciences, Tel Aviv University, Tel Aviv, Israel
E-mail address: shmulik@terra.tau.ac.il*

CONTENTS

| | |
|-----------------------------------------------------------------------------------------------------------------------------|----|
| Preface | |
| J.J. Clague | 1 |
| Future trends in paleoseismology: Integrated study of the seismic landscape as a vital tool in seismic hazard analyses | |
| A.M. Michetti, F.A. Audemard M. and S. Marco | 3 |
| The importance of paleoseismology in seismic hazard studies for critical facilities | |
| A. Gürpinar | 23 |
| Paleoseismology in Venezuela: Objectives, methods, applications, limitations and perspectives | |
| F.A. Audemard M. | 29 |
| Review of paleoseismological and active fault studies in Taiwan in the light of the Chichi earthquake of September 21, 1999 | |
| Y. Ota, Y.-G. Chen and W.-S. Chen | 63 |

| | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Surface ruptures induced by the devastating 1068 AD earthquake in the southern Arava valley, Dead Sea Rift, Israel E. Zilberman, R. Amit, N. Porat, Y. Enzel and U. Avner | 79 |
| High-resolution stratigraphy reveals repeated earthquake faulting in the Masada Fault Zone, Dead Sea Transform S. Marco and A. Agnon | 101 |
| Paleoseismic evidence of legendary earthquakes: The apparition of Archangel Michael at Monte Sant'Angelo (Italy) L. Piccardi | 113 |
| Archaeoseismic record at the ancient Roman City of <i>Baelo Claudia</i> (Cádiz, south Spain) P.G. Silva, F. Borja, C. Zazo, J.L. Goy, T. Bardaji, L. De Luque, J. Lario and C.J. Dabrio | 129 |
| Fault scarps and deformation rates in Lazio–Abruzzo, Central Italy: Comparison between geological fault slip-rate and GPS data I.D. Papanikolaou, G.P. Roberts and A.M. Michetti | 147 |
| Some considerations concerning seismic geomorphology and paleoseismology F. Dramis and A.M. Blumetti | 177 |
| Palaeoseismology in steep terrain: The Big Bend of the San Andreas fault, Transverse Ranges, California D. Rust | 193 |
| Late Quaternary activity of the Pajarito fault, Rio Grande rift of northern New Mexico, USA J.P. McCalpin | 213 |
| Late Pleistocene and Holocene paleoseismology of an intraplate seismic zone in a large alluvial valley, the New Madrid seismic zone, Central USA M.J. Guccione | 237 |
| An interpretation and catalogue of paleoseismicity in Sweden N.-A. Mörner | 265 |
